Food Information

It is the Larder member's responsibility to ensure that they check the food labels for ingredient information for any intolerances or allergies that they have towards food items

The Larder will from time to time have items in stock that have passed their best before dates. Best before dates are about quality and not safety. When this date has passed, it doesn't mean that the food will be harmful, but it may begin to lose either the texture or flavour. These items will be clearly marked and additional information is available if required.
